WORK EXPERIENCE

Parsons School of Design, Code Tutor, New York (NY)

October 2025 - May 2026

- Mentored undergraduate students in creative coding (HTML, CSS, JavaScript), debugging projects, strengthening conceptual understanding through one-on-one and group sessions and clarifying different technical workflows.
- Supported classroom instruction by helping students translate design ideas into functional digital experiences.

Design with Sunday, Design Intern, Raipur, India

June 2025 - August 2025

- Managed social media accounts for brands by developing content calendars, designing posts and captions.
- Analyzed performance metrics to refine visual strategy to increase audience interaction. Aligning brand voice and engagement goals to maintain consistent brand identity across websites, social media and exhibitions.

Enormous, Design Intern, Mumbai, India

June 2024 - July 2024

- Assisted in logo development and brand identity design for advertising campaigns, contributing to concept research, mood boards, visual iterations and creating layout variations for print and social media campaigns.
- Made 20 logo variations for a company that focuses on building coworking spaces and flexible office solutions.

Maira Resort and Convention Centre , Freelancer, Raipur, India

June 2025 - August 2025

- Designed restaurant and cafe menus and promotional collateral that aligned with brand aesthetics and identity.
- Created a feature page for *Wedding Asia* magazine to promote the resort and developed social media content to enhance brand visibility and audience engagement while also improving visual clarity for guests staying there.

PROJECTS

Go Touch Some Grass - Digital Sanctuary for NYC Students

February 2026

- Designed and developed an immersive website that curates academic calendar specific nature-based getaways for college students in New York across the year, to encourage digital disconnection and mindful exploration.
- Built an user-centered navigation by creative coding using HTML, CSS, Javascript, integrating google sheets API to easily update getaways and an automatically updated comment section with google forms.

Tipsi - Social Recommendation & Discovery App

December 2025

- Conceptualized and designed a figma prototype mobile app that determines users' alcohol limits by calculating recommended consumption judging by health and daily lifestyle while also having features for safety purposes.
- Led UX research, wireframing iterations, and visual identity development to create a seamless discovery and key feature flows that balances personalization, usability, clean contemporary design and the overall user experience.
